# PAIRING TO YOUR TOYOTA VIA BLUETOOTH

Toyota's latest-generation Audio Multimedia platform has arrived, and it includes a huge list of great entertainment, convenience, and connectivity features. Access them all by connecting your mobile devices to your Toyota through *Bluetooth*®[1]. This new system allows for up to five devices to be stored – and two to be connected at the same time!

ADDING A NEW DEVICE

It's easy to pair a device and get started – whether or not an existing user profile is active on the system.

1 Select **Settings** [⚙] on the touchscreen, then select **Bluetooth & Devices**.

2 Select **Search for devices**. If an existing device is already associated, select **Add another device**.

**3** Select **OK** on the pop-up, and then choose the device from the list.

4 A code will appear on both the vehicle display and the mobile device. Confirm that it matches, then select **OK**.

5 (GUEST MODE ONLY) If you wish, select **OK** to download the Toyota app. Otherwise, select **Cancel** to proceed with pairing.

6 (GUEST MODE ONLY) Enter a phone number and select **Send** to receive an SMS with a download link for the Toyota app.[2]
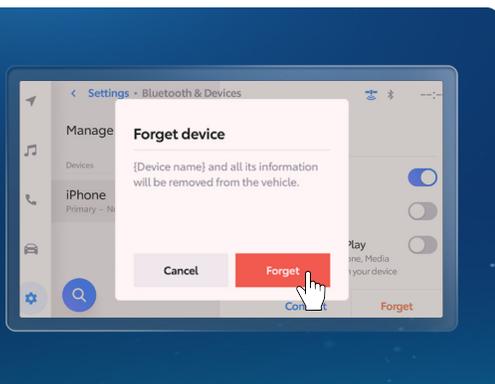

7 (PROFILE MODE ONLY) Select **Set as Primary Device**. If an existing device was already set, select **Yes** to replace it as the primary device.

8 Select **Yes** to enable Apple CarPlay®[3] or Android Auto™[4], or select **No** to continue as a regular Bluetooth device.

9 Tap through any prompts on the device to allow Apple CarPlay or Android Auto use, or to allow contact sync and messaging.

CONNECTING A SAVED DEVICE

Already paired? Quickly connect to any existing device in just three taps.

1 Select **Settings** [⚙] on the touchscreen.

2 Select **Bluetooth & Devices**.

3 Choose the device from the list, then select **Connect**. If a different device is currently paired, select **OK** to switch.

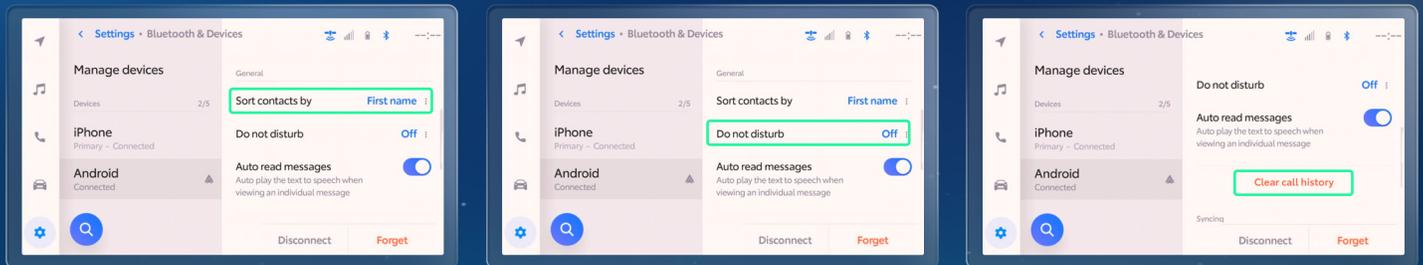

4 Tip: If you need to **Disconnect** or **Forget** a device, it can be done from this same screen.

MANAGING DEVICES

Looking to customize your device's behavior when it's paired? Here's some options.

1 Select **Settings** [⚙] on the touchscreen.

2 Within **Bluetooth & Devices**, choose the device from the list.

3 Choose whether the device is used for **phone**, **media**, or **Apple CarPlay and Android Auto**.

4 Choose whether your contacts are sorted by **First name** or **Last name**.

5 Set the **Do Not Disturb** mode on or off, or set it to **Silent**.

6 Select **Clear Call History** to remove the call log from the vehicle.

DISCLOSURES

1. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage and carrier. **2.** Apps and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and capability. Data charges may apply. See https://www.toyota.com/audio-multimedia for details. **3.** Apps and services are subject to change at any time without notice. Data charges may apply. Apple CarPlay® functionality requires a compatible iPhone® connected with an approved data cable into the USB media port. Apple CarPlay is a registered trademark of Apple Inc. **4.** Android Auto is a trademark of Google LLC. To use Android Auto on your audio display, you'll need an Android Auto compatible vehicle and Android phone. For phone compatibility visit: https://www.android.com/auto/. Apps and services vary by phone carrier and are subject to change at any time without notice.
